Lynda--

Jenny sent the pesticide edits to me and I already incorporated into the latest draft. I just added these comments from Christine/Dennis to that version so everything is together in one doc. (See attached)

This version doesn't have the new language on pesticides that was negotiated with OPP yesterday and today. Jenny and Steve have this – can one of you quickly insert into the decision doc?

If neither of them is available I can do it based on most recent email from OPP with the language

Thanks! We're sending it off for one more quick scrub for typos and footnote formatting.

Regarding your hyphenation edits, Tt, the style/grammar experts, removed the hyphenation during their editorial review so I did not incorporate those to be consistent with the previous edits they made.

Christine:

I had only one comment that I felt should be included. You can find my proposed revision in the text and my comment in the marginal notes. Thanks for the opportunity to review this.

Dennis
